

GREEN STORY; ENSURING A GREENER FUTURE, TOGETHER

Our Green Story -

We believe sustainability creates value not only for our business but also for our guests and the local community.

As proud members of Green Tourism, we are committed to reducing waste, conserving resources, and minimising our environmental footprint.

Through responsible practices and continuous improvement, we strive to make a positive impact on the environment while enhancing the experience of those who visit and work with us.

Our Sustainability Journey -

Reducing waste is a core goal on our sustainability journey. We actively recycle plastics, paper, cardboard, batteries, and printer cartridges.

Throughout the hotel, we use Vegware recyclable cups and eGreen straws to help minimise our environmental impact.

Saving energy and water is one of our top priorities. With this in mind, we are currently undertaking the following initiatives:

- Replacing traditional light bulbs with energy-efficient LED lighting throughout the hotel.
- Installing motion-sensor lighting in key areas of the hotel.
- Introducing water butts to support sustainable watering practices within our gardens.
- Installing Cistermiser water management systems for our urinals.
- Reducing energy consumption through more efficient heating systems, including the installation of new condensing boilers.
- Adding insulation (lagging) to all pipework to improve energy efficiency.
- Providing guests with information and guidance on how to use energy more efficiently during their stay.
- When sourcing products and services, we aim to partner with companies that share our environmental values and, where possible, prioritise local suppliers.

Our Ongoing Commitment

We are committed to:

- Reducing the energy and water we consume.
- Increasing the amount of waste that is recycled or reused.
- Strengthening local and sustainable supply chains.
- Encouraging biodiversity within our hotel grounds.
- Sourcing local when possible.

Our green story is always evolving. We are proud to be part of this journey and grateful for the support of our guests, staff, and local community. Together, we look forward to creating a more sustainable future.

Thank you for being part of our journey.
