

# STAYING SUSTAINABLE WITH US

We can all do our bit when it comes to being sustainable,

Here are some tips on how you can be more sustainable during your visit with us:

- Arrive at the Hotel using public transport or eco-friendly cars.
- Please turn off lights in rooms when they are not in use.
- Please turn heating down or off when you are not in the room. Between 18c-21c is an ideal temperature.
- Please conserve water, only use what you require and do not leave taps running.
- Please do not flush sanitary products, wipes or nappies down the toilet.
- Please reuse towels where you can. Towels on the floor means we will replace them, Towels on the rail means you will use them again.
